Finnish Lapland

# Timapuu

SO MUCH MORE THAN AN ORDINARY HUT

MADE IN  
TORNIO

High-quality materials • Carefully considered structural solutions  
Comprehensive accessories • Delivery on a turnkey basis

# Outbuildings with great ambiance, imbued with the spirit of the hut

**A fisherman's refuge or a cosy garden sauna, a charming guest house or a special venue for corporate events. Timapuu's barbecue huts, saunas and summerhouses are comfortable and attractive outbuildings suited for many applications and environments.**

Our products are made of densely grained Lappish pine in Tornio, Finnish Lapland. They are based on the idea of the traditional hut: a sturdy structure that

is quick to erect and which has provided warmth and shelter for the people of the north since ancient times. We have remodelled the hut into versatile structures that meet modern requirements but are still imbued with the warm spirit of the hut. We have invested in the highest quality in the selection of construction materials, equipment and accessories. Our carefully considered structural solutions and professional installation work ensures that, having bought a Timapuu hut, you can enjoy it for decades to come.

Our huts make an ideal fisherman's refuge in the wilderness, for example.

# BARBECUE HUTS

## Hut 6.9

### Build ambiance in a small courtyard

This cosy barbecue hut is ideal for a small courtyard, with space for up to 10 people to enjoy its relaxing atmosphere. The octagonal floor design provides more seating and floor space than a hexagonal design. Thanks to the steep roof and dimensions, the hut does not require a chimney or smoke hood, which makes it more spacious.

The standard equipment includes low-emissivity windows (one opening), encircling benches, floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill.

#### The barbecue package includes

- ▶ Octagonal Polar grill (Ø 60 cm)
- ▶ 8-part detachable table encircling the grill (depth 30 cm, can also be used as lap tables)
- ▶ Sausage-grilling set (contains a fire iron and rake)
- ▶ Cast-iron crêpes pan
- ▶ Steel pan
- ▶ 6 lap tables
- ▶ A full Polar smoke hood and chimney are available as an optional accessory upon request.

Huts are also available with no accessories and with the Lapland package.

The barbecue hut is comfortable and attractive, ideal for company and cooking. The popularity of this cosy outbuilding stems from its versatility. Our range includes five models of different sizes, ranging from intimate huts perfect for small courtyards to large huts with space for up to 40 people and a whopping barbecue grill.

All our huts come with low-emissivity windows, encircling benches, floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill. However, most huts are ordered completely ready for use with barbecue accessories. If you wish, you can complete the accessories of your hut with the Lapland package. All our huts are also available without accessories.

## Accessory packages

### Barbecue package

(available for models

Hut 6.9, Hut 9.9 and Hut 12)

- ▶ Octagonal Polar grill (Ø 60 cm; Ø 70 cm with Hut 12) ▶ full Polar smoke hood and chimney (Optional, available on request to Hut 6.9 and Hut 9.9. Comes standard with the Hut 12 barbecue package.) ▶ 8-part detachable table encircling the grill (depth 30 cm, can also be used as lap tables) ▶ Sausage-grilling set (contains a fire iron and rake) ▶ Cast-iron crêpes pan ▶ Steel pan ▶ 6 lap tables

### Lapland package

The octagonal floor design enables efficient use of the surface area.

# Hut 9.9

## Convenient guest house

This traditional-style hut that can accommodate up to 15 people. Thanks to its dimensions and wide benches, the hut can also be transformed into a cosy guest house for 2–3 people. The ingenious hut design makes a chimney and smoke hood unnecessary, leaving more space for company and activities.

The standard equipment includes low-emissivity windows on four walls (one opening), encircling benches (depth 70 cm on the three back walls), floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill.

### The barbecue package includes

- ▶ Octagonal Polar grill (Ø 60 cm)
- ▶ 8-part detachable table encircling the grill (depth 30 cm, can also be used as lap tables)
- ▶ Sausage-grilling set (contains a fire iron and rake)
- ▶ Cast-iron crêpes pan
- ▶ Steel pan
- ▶ 6 lap tables
- ▶ A full Polar smoke hood and chimney are available as an optional accessory upon request.

Huts are also available with no accessories and with the Lapland package.

▲  
The accessories of Timapuu barbecue huts are high-quality Finnish products, and spare parts are easily available.

## Hut 12

### Pride of a large courtyard

This hut has plenty of space for around 20 people. The model can be customised with wider benches, which help transform the hut into a restful sleeping place for several people or a refuge for a fishing, hunting or hiking party.

The standard equipment includes double-glazed windows on four walls (one opening), encircling benches (depth 70 cm on the three back walls), floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill.

#### The barbecue package includes

- ▶ Octagonal Polar grill (Ø 70 cm)
- ▶ Full Polar smoke hood and chimney
- ▶ 8-part detachable table encircling the grill (depth 30 cm, can also be used as lap tables)
- ▶ Sausage-grilling set (contains a fire iron and rake)
- ▶ Cast-iron crêpes pan
- ▶ Steel pan
- ▶ 6 lap tables

Huts are also available with no accessories or with the Lapland package.

## Hut 17.2

### Can double as a summer cottage

This extremely spacious model is ideal for relaxation in company with space for up to 25 people. Since there is plenty of space for storage, company, cooking and sleeping, the hut is extremely versatile. The hut can be used as a venue for family functions or get-togethers, but this model has also been used as an outbuilding and summer cottage.

The basic package includes double-glazed windows on four walls (one opening), encircling benches (depth 70 cm on the three back walls), floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill.

You can also order the hut with the full accessories package.

Our largest barbecue hut offers plenty of space for a bus-load of people (40 persons).

# Hut 28.0

## Ideal for a large party

Thanks to its impressive size, our largest barbecue hut is ideal for large get-togethers. The hut has plenty of space for up to 40 people to socialise in comfort, and the floor is wide enough for dancing. The hut is excellently suited for hunting clubs, large family functions or camping sites, for example.

The standard equipment includes low-emissivity windows on five walls (one opening), encircling benches (depth 70 cm on the five back walls), floor grating, mortise lock, deadwood door handles, graphite-black felt shingle roofing and a stainless-steel door sill.

You can also order the hut with the full accessories package.

# SAUNAS

**Timapuu's saunas have great ambiance and high ceilings, which guarantee a smooth, even flow of steam that is rich in oxygen – perfect for relaxing both the body and the mind. Both saunas are designed in a manner that honours the Finnish sauna tradition while not forgetting user comfort.**

We deliver our saunas completely ready for use. The saunas are equipped with everything you need for a relaxing sauna experience: stove and stove stones, custom-designed benches, Narvi steel chimney solution, water bucket and ladle, bench towels and thermometer. Both sauna models have Narvi's Kota Luosto stove included in the price. Durable and efficient, it only requires a small amount of wood to heat and is equipped with a stainless steel water jacket tank with faucet.

## Sauna 9.9

The 9.9 m<sup>2</sup> sauna is perfect for a small courtyard while offering plenty of space for 8–10 people to relax and enjoy the hot steam.

The central position of the stove guarantees a smooth, even flow of steam. Thanks to the steep roof, the benches are high enough to warm even the coldest toes. The sauna is delivered completely ready for use.

## Scenic sauna

The large windows of the scenic sauna bring the tranquility of nature into your sauna experience. The sauna has plenty of space for 8–10 people. The stove of the scenic sauna is also placed at the centre, which ensures even distribution of heat and steam. The sauna is delivered completely ready for use.

# Summerhouse

## Comfortable and light-filled heart of your summer courtyard

This comfortable 9.9 m<sup>2</sup> summerhouse is the heart of the courtyard and can also be transformed into a cosy guest house where needed. The high walls and large windows introduce light and create a spacious feeling. We can also deliver the hut in larger sizes if preferred. You can choose one of our three barbecue packages for your summerhouse.

The standard equipment of summerhouses includes bronze low-emissivity windows on seven walls (opening windows on one wall), encircling benches (depth 70 cm on the three back walls), floor grating, mortise lock, stainless-steel door sill, deadwood door handles, graphite-black felt shingle roofing and eaves flashing.

If you wish, you can also order beautiful reindeer skins or sheepskins for the benches.

**There are three barbecue packages available for summerhouses:**

### Polar barbecue package:

Octagonal Polar grill (Ø 60 cm); smoke hood with chain; 1.5 m chimney with damper, flashing and rain cap; 8-part detachable table encircling the grill (depth 30 cm), which can also be used as lap tables; sausage-grilling set (contains a fire iron and rake); cast-iron crêpes pan and steel pan.

### Kotakeittiö® BBQ antique copper barbecue package:

Kotakeittiö® BBQ antique copper grill (working height approx. 80 cm, Ø 80 cm), smoke hood, chimney with damper, flashing and rain cap (antique copper), 2 adjustable shelves, 2 boards with racks for glow-frying salmon, cast-iron grill, steak grill (Ø 72 cm) and fire iron, sausage-grilling set (contains a fire iron and rake); cast-iron crêpes pan and steel pan.

### Apetit round granite table barbecue package:

Firebox (working height 67 cm, Ø 58 cm), granite table (Ø 120 or 157 cm); smoke hood with chain; 1.5 m chimney with damper, flashing and rain cap; sausage-grilling set (contains a fire iron and rake); cast-iron crêpes pan and steel pan.

# Timapuu Quality

Timapuu huts are genuine Lappish products.

**For us, quality means carefully crafted and meticulously finished products manufactured from top-quality materials. Every single detail has been carefully considered from the viewpoints of user comfort and durability.**

All our products are made by hand in Tornio, Finnish Lapland, out of highly esteemed Lappish pine. The wood we use grows in the extreme conditions of the far north, making it very densely grained and able to withstand all kinds of weather. Cracking, shrinkage and swelling is minimal even with great fluctuations in temperature and humidity.

Comprehensive and personal service is an essential part of Timapuu Quality. We want you to be able to enjoy your new Timapuu hut as quickly and effortlessly as possible. That is why all our models can be delivered on a turnkey basis. Please ask for more information.

Timapuu is 100% Finnish. All our products from the wood material to sauna stoves and barbecue grills are made in Finland, which also ensures that spare parts are easily available. We have chosen our partners with great care to ensure that you can enjoy your Timapuu hut for a good long time.

# Carefully considered structural solutions

The wall material is 45-millimetre milled log. The sturdy log helps the building stand strong and will serve you for many years to come.

Huts made with heavier 70-millimetre log or semi-round log are also available.

The wall logs consist of one thick joint, which prevents humidity from getting between the logs.

The roof is made with vertical boarding without tongue-and-groove joints to help moisture exit from between the roof boards and felt.

We always finish the eaves with drip moulding, which keeps the eaves boarding dry.

**All Timapuu products are octagonal, except our largest barbecue hut, which is decagonal.**

Thanks to the greater number of corners, our products are rounder and thus more spacious than hexagonal structures. Always remember to place an air inlet pipe under the grill (min. 200 mm).

	Diameter	Diagonal	Side length
Hut 6.9	3,149 mm	2,909 mm	1,205 mm
Hut 9.9	3,750 mm	3,464 mm	1,435 mm
Hut 12	4,116 mm	3,802 mm	1,575 mm
Hut 17.2	5,017 mm	4,635 mm	1,920 mm
Hut 28	6,181 mm	5,878 mm	1,910 mm
Summerhouse	3,750 mm	3,464 mm	1,435 mm
Saunas	3,750 mm	3,464 mm	1,435 mm

# Barbecue grills, sauna stoves and roofing felt

The high quality of Timapuu products extends to barbecue grills, sauna stoves and roofing felt. We have chosen our partners with great care, and all the options we offer are high-quality Finnish products.

## Barbecue grills

Our standard barbecue package comes with an octagonal or decagonal Polar grill, depending on the hut design. If you wish, you can also choose another barbecue grill solution. Please do not hesitate to ask about the options.

## Sauna stoves

Timapuu saunas come standard with an efficient Narvi Kota Luosto stove. Its water jacket is a safe solution for heating washing water and also suits the atmosphere of the hut. Water temperature never exceeds 100 °C. The water jacket has been placed around the stove instead of on the chimney, where it would be a visual obstruction. You can also choose another wood-burning or electric stove for your sauna. We will be happy to tell you more about the options.

## Roofing felt

Timapuu products come standard with graphite-black Icopal felt roofing. The felt is also available in a variety of colours. Colour options include forest green, coal grey, earth brown and brick red.

## A good foundation guarantees long service life

When you purchase a Timapuu product, all you need to do is lay the foundations. Foundations should be laid with great care, since a good foundation guarantees a long service life for the building. Good instructions and precision ensure that even an inexperienced builder can lay the foundations. The only objective

is a level, horizontal and hard foundation for the building. It is largely a matter of taste, but you should also consider any special requirements of your building site. We will be happy to help you find the right foundation. We also sell prefabricated timber foundations with installation instructions.

**Timapuu Oy Marttila** is a family business that has been manufacturing high-quality barbecue huts, saunas and summerhouses since 1995. Our factory is located in Tornio, Finland, and employs approximately 15 people. Over the years, we have delivered thousands of products to countries around the world, including Sweden, Norway, Germany, Russia and France.
